Refused to Leave Until Told Fight Against Fire Was Hopeless.

## WANTED TO SAVE SHIP

On Way to San Francisco on Transport Thomas—Honolulu a Hulk.

SAN FRANCISCO, Oct. 13 (Associated Press).—The United States Army transport Thomas is steaming toward San Francisco with the 261 passengers and crew of the liner City of Honolulu, which is drifting, a burned out hulk, on the sea lanes to the southwest. The Thomas should arrive Sunday.

The Thomas took the passengers and crew of the Honolulu from the West Paragon, which rescued them from the sea about the burning Honolulu, about 620 miles southwest of San Francisco.

Word from the transport to the Associated Press today by the wireless service of the Federal Telegraph Company said the passengers were in good spirits and that they evidently showed no fear when the fire crept around them on the great liner and forced them to take to the small boats.

The West Paragon sent word to-night that the Honolulu was still burning. Day reports told of the saving in of her superstructure. The hull was too hot to be approached today, according to a radio from the West Paragon to her agents here, Struthers & Barry.

The rescue boat was told to stand by until it could be determined whether the ship should tow the hulk to a museum port or merely wait until salvage vessels arrived. The Honolulu, changed to that natural hazard known as a "mine" to navigation, must be closely watched.

Today's reports lacked any details of personal experiences or of the losses suffered by passengers and crew. There were words of praise, however, for the manner in which Capt. Harry R. Lester of the Honolulu and the crew handled the emergency.

The passengers wanted to stay with the Honolulu, according to the message from the Thomas, in the belief that the fire would be controlled. They were, however, that the fight against the fire was proving a losing one.

The arrival of the Thomas is not to be made a public spectacle, according to transport authorities. The public will be kept off the landing piers, but relatives and members of the press will be permitted on the transport.

## WILD BOARS SCARE TOURISTS.

Invasive French Town, but Farmers Drive Them Away.

MOULINS, France, Oct. 13.—Seventeen wild boars to-day invaded La Chapelle, a small village near here, and created consternation among passengers at the railroad station awaiting the Clermont-Ferrand train. Farmers armed with pitchforks and rifles succeeded in putting the animals to flight.

## DISABLED MEN WRITE IN PRAISE OF CALDER

Senator Gives His Answer to Dr. Copeland.

Senator William M. Calder, answering Dr. Royal S. Copeland's charge that he was not well informed and showed little interest in the condition of disabled ex-service men, made public yesterday a letter from John P. Geier, who is in the Naval Hospital in Brooklyn.

Geier said that through Mr. Calder's hard work "a bill passed the Senate increasing allowance for attendants from twenty to fifty dollars," and added:

"Never has a fellow in this hospital appealed to Senator Calder in vain. His untiring efforts have always produced results. A few of the badly battered fellows are still here and want to stand behind him because of his services to us."

## CASSIDY IMPARTIAL IN JABS AT CANDIDATES

Socialist Finds Gov. Miller and Smith Equally Bad.

Even if he does not get votes enough to startle the world, Edward F. Cassidy is having a lot of fun out of the State campaign. Life, the Socialist and Farmer-Labor nominee for Governor, is as prolific enough with statements and speeches to fulfill all requirements of all members of the three combined parties. He shows no favoritism in assailing both Gov. Miller and Alfred E. Smith. This is the way he goes after them:

"I want every man, woman and child in this State to know that Nathan L. Miller and Alfred L. Smith are puppets of Wall Street controlled political machines pledged to perpetuate intolerable oppression of the people for the benefit of profiteers."

"I want them to realize that victory for the Republican or Democratic parties means victory for those forces fighting for an open shop, high rents, high food costs, exorbitant utility rates and gift of the State's natural resources to big business."

"I want it understood by the voters that their ballots are to be used against them by a combination of special privileges as sinister as the plutocratic collusion that preceded the downfall of the Roman Empire."

Alfred E. Smith administered the affairs of this great State and its 11,000,000 inhabitants \$55,000,000 cheaper than the Honorable Nathan L. Miller, or whether the Honorable Nathan L. Miller performed the functions of government \$22,000,000 cheaper than the Honorable Alfred E. Smith?

"To the man in the street this duel of political highlanders has been the most wasteful and costly in all the history of our Empire State. They have scattered millions and billions before them like chaff before the autumn wind. They have piled cost upon cost, profit upon profit, gouge upon gouge, until the public groans beneath the weight and cries aloud for relief."

## SCOTCH PLAINS CHURCH TO MARK ITS 175TH YEAR

Had Baptist Congregation Before New York Did.

The First Baptist Church of Scotch Plains, N. J., will celebrate its one hundred and seventy-fifth anniversary tomorrow.

Men and women of national reputation will join in the ceremonies, among the speakers being the Rev. Dr. Charles H. Sears of the New York City Baptist Mission Society; the Rev. Dr. Emory W. Hunt, president of Bucknell University; the Rev. Dr. W. H. P. Faunce, president of Brown University; the Rev. Dr. Joseph Taylor of Chengtu, China, and Helen Barrett Montgomery, former president of the Northern Baptist Association.

When the Baptist Church of Scotch Plains was founded in 1747 there was no regular Baptist Church in New York city. The Baptists of the city uniting with the Scotch Plains church and receiving visits from the Rev. James Carman, who went from Scotch Plains to New York to administer communion once every quarter and baptize.

Later the New York congregation rented a rickety loft in Cart and Horse street, now William street. It was not until June 19, 1762, that the twenty-seven Baptists of New York city organized the First Regular Baptist Church. The Rev. John Gano of Scotch Plains was the first pastor, holding the pulpit for twenty-six years.

Dr. Banting is not yet 30 years old, but his relationship with the University of Toronto, General Hospital and the Academy of Medicine is on a sure footing. Doctors here admit the results have been remarkable. At present nine men employed in the production of the serum, working at the Connaught laboratories, which are already famous for vaccine, anti-typhoid prophylactic and other antitoxins.

There are critics of the university who say that the provisions made for the development of Dr. Banting's treatment are entirely inadequate. They say that instead of nine men there should be hundreds at work on the production of the serum, and that no expense should be spared in giving to the world every facility for employing this remedy.

Dr. Banting to-night again declined to make any statement on the progress made. His assistant, Dr. McLeod, took a similar position, claiming it would be unprofessional.

Miss Hughes, daughter of Secretary of State Charles E. Hughes, was one of the first of fifteen patients received here for treatment. Although it was impossible to get any information as to the reaction of the treatment upon Miss Hughes' father, it is believed the doctors here and in New York are satisfied with the results.

## MOTORS KILL TWO UP-STATE.

ROCHESTER, N. Y., Oct. 13.—Charles Fisher, 19, of Chili, a village near here, was crushed to death to-day when a large motor truck he was driving turned over, breaking him underneath. His neck was pinned. The accident was in front of his home.

Miss Laura M. Warner, 52, was killed instantly when she was knocked down by an automobile at Irondequoit Bay. The driver said she stepped into the path of his car and he was unable to swerve, at a loss for relief.
